COVID PROTOCOL AGREEMENT FORM

The safety of our travelers is a top priority, especially during the ongoing COVID-19 pandemic. The following document outlines the mandatory requirements for all of our travelers. A signed copy of this document must be returned to the designated SOS trip leader/medical chaperone on or before the mandatory pre-departure meeting.

1. Traveler must be **fully vaccinated** against COVID-19, and proof of vaccination status is required.
 - Per CDC guidelines an individual is considered fully vaccinated 2 weeks after receiving the 2nd dose of Moderna or Pfizer series or 2 weeks after receiving 1st dose of the J&J Janssen vaccine
 - However, travelers will also be required to follow any CDC recommendations regarding booster shots, as approved for the traveler's age group and based on the vaccine initially received

2. Traveler must show proof of a negative viral COVID-19 test (rapid or PCR) no more than 3 days (72 hours) before departure date. Traveler will also complete a viral COVID-19 test no more than 1 day before travel by air into the United States and must prepare to show the negative result to the airline before boarding the flight. (These recommendations are subject to change based on government and agency guidelines both in the U.S and travel destinations).

EXCEPTION: If the traveler recently recovered from COVID-19, he/she may instead travel with documentation of recovery from COVID-19 (i.e., positive COVID-19 viral test result on a sample taken no more than 90 days before the flight's departure and a letter from a licensed healthcare provider or a public health official stating that traveler has been cleared to travel.)

Expectations during Travel

4. Traveler will be required to wear a mask at all times during indoor activities and when around others. Traveler must also wear a mask outdoors when around large crowds of people where social distancing is not possible. Traveler is not required to wear a mask indoors when in their own hotel room.
5. Traveler will be required to comply with all mandatory COVID-19 safety protocols imposed by the destination State or Country, as well by the event organizer or venues travelers may visit. Failure to comply with any such requirements can result in a traveler being excluded from the event or venue.
6. If the traveler tests positive for COVID-19 during the trip, he/she will be immediately isolated from other individuals on the trip. If the traveler is a minor/student, SOS trip leaders will ensure that the student remains supervised. Please understand that part of the isolation protocol may require that a separate hotel room be obtained for a traveler that tests positive. Such a room, and any other related costs, including meals, will be at the traveler's/parents'/guardians' expense if not covered by trip insurance. Should a determination be made that the student/traveler's illness requires immediate medical attention, SOS trip leader and/or medical chaperone will ensure that occurs. Any such medical attention not covered by trip insurance will be at traveler's/parents'/guardians' expense.
7. If the traveler is a minor and he/she tests positive for COVID-19 while on the trip, parent/guardian will be notified as soon as possible. At the discretion of the SOS trip leader, parents/guardians may be required to make travel arrangements for an individual to accompany the student/traveler during his/her isolation period. Should an individual's travel plans be interrupted due to COVID-19 illness, SOS will not be responsible for providing a refund for the cost of the trip. While individuals are required to purchase at least basic travel insurance, please be advised that such insurance often contains several exclusions and does not cover the full cost of the trip even when coverage is triggered. Please review any trip insurance documents carefully before purchase.
