

STUDENTS OF SERVICE LUNCHEON

ABOUT US

Students of Service (SOS) develops young leaders who have a global perspective to solve local problems. Founded in 2014 under the name Summer of Service, SOS provides underserved young people in San Antonio, Texas with meaningful out-of-school learning and enrichment opportunities. Our innovative programming combines local community service with international experiences, promoting servant leadership and civic engagement. We see a world in which all young people - no matter their background - believe in their power to make a positive difference in their communities and around the world.

“
WE SEE A WORLD IN WHICH ALL YOUNG PEOPLE - NO MATTER THEIR BACKGROUND - BELIEVE IN THEIR POWER TO MAKE A POSITIVE DIFFERENCE IN THEIR COMMUNITIES AND AROUND THE WORLD.
”

LEARN

SOS provides students opportunities for experiential learning to develop young leaders with a global perspective to solve local problems. We prepare you to make an impact at home and around the world.

SERVE

We provide meaningful service learning opportunities to students that can be done in group outings or from home. Our portal tracks your hours, generates a volunteer resume, and much more!

EXPLORE

Expand your understanding by traveling the world, virtual exchange, or hosting students from abroad. Meet new people, learn new customs, and experience the world first-hand.

BY THE NUMBERS

Since 2014, SOS has reached over 2,500 students, and 100 educators in over 50 local schools. By focusing on student leadership and global and cultural competencies, SOS is promoting empathy, citizenship, diversity, inclusion, and equity.

Our experiential learning programs are authentic, relevant, and transformational, developing students as leaders in our community. These programs make students more prepared for college, career, and life in a global village, who are inspired to be engaged citizens at home who are making a difference at home, informed by a global perspective.
